ATTEST:

Secretary

July 15, 1982

Dear Sir:

As concerned customers of the Fancy Farm, Kentucky sewer and water district, we are requesting information concerning an order of the Utility Regulatory Commission in case no. 7739 dated September 20, 1980 in which monthly rates were prescribed for all customers served by Fancy Farm Water District, Sewer Division.

When the project of a sewer system was first presented to the residents of Fancy Farm by an appointed board, we were not led to believe that our sewer bills would run much higher than our water bills had been. However, on the average the sewer rates are anywhere from 20 to 40 dollars per family. In this time of economic stress, this is certainly a hardship for many families in the area.

When questions are asked about these rates to this appointed board, the questions are avoided. Individuals have asked to attend the board's meetings but are not informed when or where the meetings take place.

SINCE this board was not elected by the people and the people have **NOT** had any voice in the rate setting and policy making, we would like to know if there are any legal steps we can take to have our sewer rates changed and, if so, what procedures should we take.

Thank you for your interest and your help will be greatly appreciated. For further information, contact J.C. Lockett, box 10, Fancy Farm, KY 42039. (502) 625-6284.
